## Site Furnishings

"Recreation Today made the purchase and install of our new playground so easy and convenient. Our school had a small budget, but with their help we were able to shop from the sale options and get a better playground than we had hoped for! They are very knowledgeable and willing to do whatever it takes to get you the best equipment at the best price. The crew did an excellent job on the installation. They are very professional and finished the entire installation in two days! I contacted several other companies and can honestly say that I'm glad we chose Recreation Today. We already have plans to start fundraising for a second playground, and we know that Recreation Today will be there for us every step of the way!" - *Sari Stenholm, PTO President, A.J. Winters Elementary School*

## Bleachers & Sports Equipment

## Shelters

"Recreation Today were so easy to work with and so helpful, it made the whole process worry free." - *Dan Reed, Grounds Supervisor, Payette County Recreation District*

Our highly skilled team has over **50 years of experience** collectively in the park and playground industry.

**RECREATION TODAY** provides high quality playgrounds that support child development, inspiring imagination and creativity through superior design. Our products cater to all ages and abilities, with an extensive array of recreational products that will fit your requirements and aesthetics. Our design team will assist you through every stage of the process from conception to completion.
